IDENT

Situated a bit hidden in the backyard, almost hidden from inattentive eyes, there are several entrances - correct: more than one.

Several entrances, open during different time periods and performances, each with different environments and regular transformations ... confusing first ... arousing curiosity in the second - and then ...

... feeling comfortable. Arrive, explore, unwind and immerse yourself - in a world beneath the surface, below public bustle and the obvious things. No daylight, no contact with the outside world and constant temperatures will definitely affect your sense of time.

Time - here it is abundant. Here it will be filled out, lived, celebrated - and ultimately forgotten ... which let you arrive at MAZE - a place that is anything but ordinary.

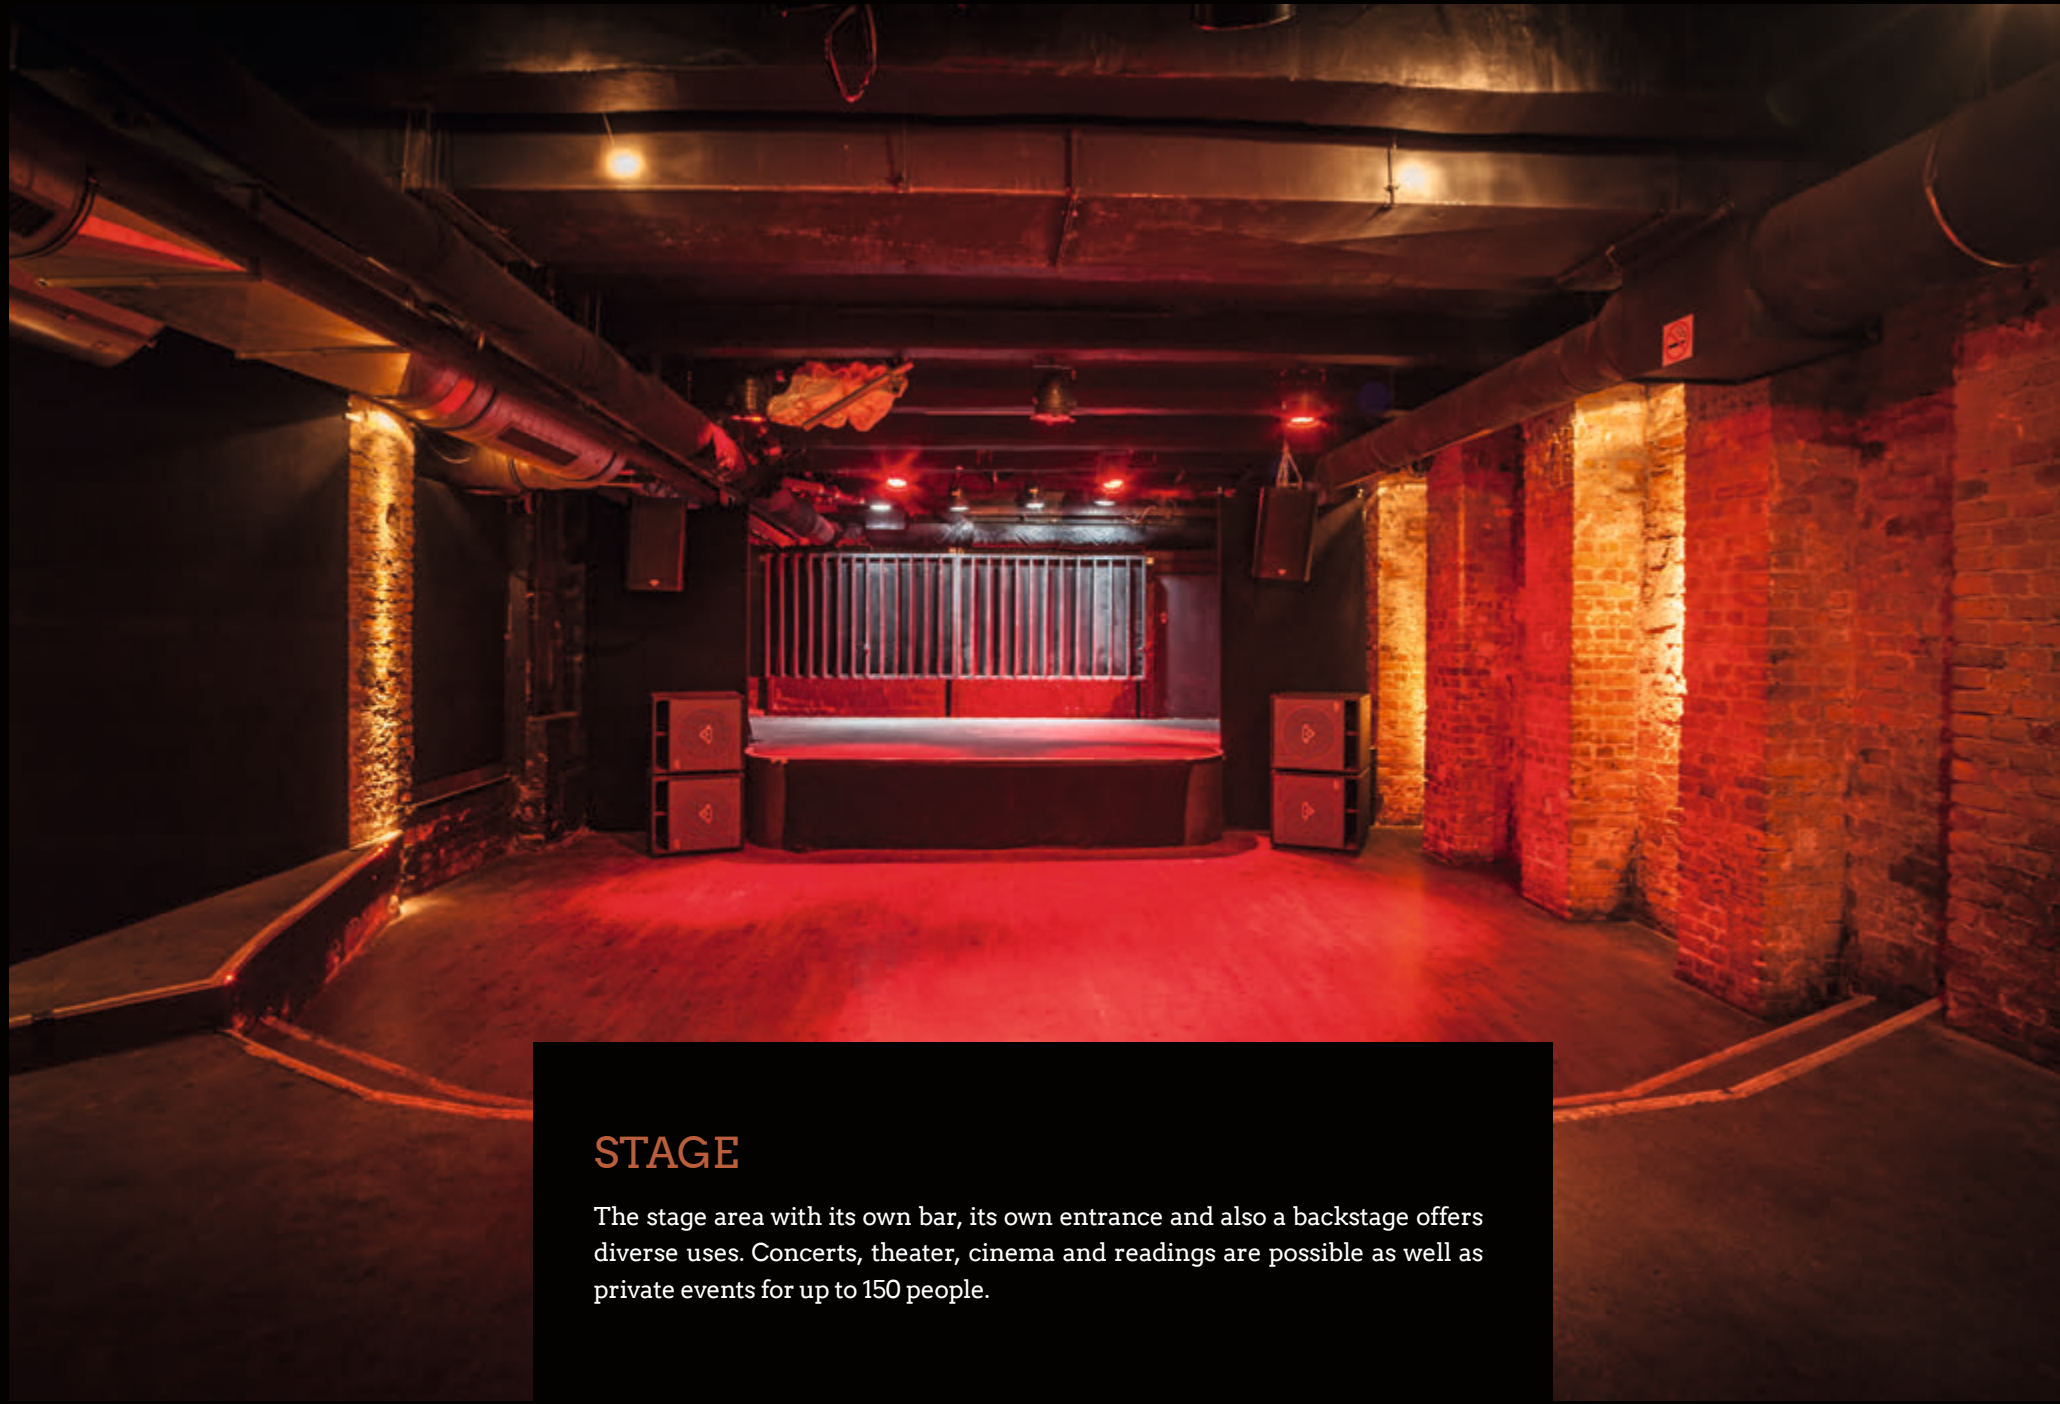

ENTRANCE

First up, then left, then down, around the corner, just to the right and to the left again – the way in is that simple. For the first-time visitors, this helps but only slightly - arrived below the orientation is gone.

The toilets are usually overlooked, the astonishment prevails...

STAGE

The stage area with its own bar, its own entrance and also a backstage offers diverse uses. Concerts, theater, cinema and readings are possible as well as private events for up to 150 people.

The decor is deliberately minimalistic, the raw character of the space was retained – so, different atmospheres for every imaginable occasion can be created very slightly. Sound System, wardrobe and own toilets also exist.

SPECS

Channelmixers

CLUB

The clubroom with its own bar, DJ booth and wardrobe is the heart of the cultural center. Maintained very dark, equipped with multiple entrances and exits and a full sound system, no wishes remain unsatisfied. Up to 150 people can be accommodated here. In addition to parties, workshops, dance classes and other uses are easily implementable.

LOUNGE

The lounge, also known as the living room is designed as a classic bar. Selected spirits, cocktails, sofas and soft lightings create an atmosphere that invites you to linger.

The maximum occupancy is 50 people - either as a „chill out area“ in combination with the Club, or separately for smaller events. Again, there is a separate entrance/exit and also own toilets.
